

Electricity

Coal and nuclear power are Michigan's chief energy sources. Reliability and price stability are protected by a mix of fuel sources:

Coal	68%
Nuclear	14%
Oil/Gas	15%
Hydroelectric	3%

LEGEND

MAJOR GENERATING FACILITIES

-  COAL-POWERED PLANTS
-  GAS/OIL-POWERED PLANTS
-  NUCLEAR-POWERED PLANTS
-  HYDROELECTRIC PLANTS
-  POWERGRID CONNECTIONS
